Portal evaluator worksheet

Account-free evaluation / fictional records / paper checklist

Evaluator / date

Source commit / build

Exact browser origin - scheme + hostname + port

Use a fresh evaluation browser context; retain your existing browser saves.

Follow docs/demos for actors, exact controls and full expected records. Tick after observing.

01 HR - onboarding to mock payroll

Designed for 5 min

- ☐ Onboard Jordan; enroll Avery in Health and waive Jordan retirement.
- ☐ Submit/approve seed time plus Avery 1.25h and Jordan 2.50h; submit mock payroll.

Expect: 17.75h; $532.50 gross; $106.50 illustrative tax; $25 benefits; $401 net.

Observed / evidence:

02 CMS - separate review and publication

Designed for 5 min

- ☐ Save revision 2; request a separate review; approve, then publish as publisher.
- ☐ Edit revision 3 privately; reload and inspect the frozen public preview.

Expect: Published revision 2 remains frozen after the later draft edit.

Observed / evidence:

03 CRM - convert and move an opportunity

Designed for 5 min

- ☐ Create and qualify the fictional lead; convert it at $1,750.25.
- ☐ Inspect linked records; move discovery -> proposal -> negotiation.

Expect: Linked company/contact/opportunity; $8,250.25 open pipeline.

Observed / evidence:

04 Recovery - one selected module and Undo

Designed for 10 min

- ☐ Export all portals; make the documented changes; restore CMS only.
- ☐ Compare complete exports, then Undo and compare again.

Expect: HR/CRM stay unchanged; Undo returns the prior CMS workspace.

Observed / evidence:

Follow-up / unexpected result / exact download or receipt ID:
